Amusement Park

Date: 01-09-2022
Guide: Ms.Ankitha Philip

1. Project Overview?

   An Amusement park is a park that features various attractions, such as rides and games, as well as other events for entertainment purposes. A theme park is a type of amusement park that bases its structures and attractions around a central theme, often featuring multiple areas with different themes. Unlike temporary and mobile funfairs and carnivals, amusement parks are stationary and built for long-lasting operation. A park managers job is to oversee and arrange the working of the park including researching, planning, organizing, implementing, controlling and evaluating park's activities. User can find various packages provided by different parks. They can book their tickets as per their needs. Admin is responsible of evaluating the bookings from users.

2. To what extend the system is proposed for?

   The software application which avoids more manual hours that need to spend in record keeping and generating reports. This application keeps the data in a centralized way which is available to all the users simultaneously. It is very easy to manage historical data in database. No specific training is required for the distributors to use this application. They can easily use the tool that decreases manual hours spending for normal things and hence increases the performance.

3. Specify the Viewers/Public which is to be involved in the System?

   - Users

4. List the Modules included in your System?

- User Authentication
- Registration
- Booking
- Payment
- Report Generation

5. Identify the users in your project?

- Admin
- Customer
- Employee

6. Who owns the system?

- Admin

7. System is related to which firm/industry/organization?

- Amusement Park

8. Details of person that you have contacted for data collection?

- https://www.wonderla.com/
- https://www.tripadvisor.in/Attractions-g297631-Activities-c52-Kerala.html

9. Questionnaire to collect details about the project? (min 10 questions, include descriptive answers, attach additional docs (e.g. Bill receipts, certificate models), if any?)

1. How packages are created?

   Packages are mainly created to attract customers. They are created mainly focusing on customers who come with family or group of friends. Offers and discounts make the packages more attractive and packages are also created on basis of Seasons.

2. Some rides loved by customers?

   Rollercoaster
   Bumper cars
   Maverick
   Space Gun etc.
3. Is there is any discounts for the customers who book tickets manually?

   Actually not, there is no special discounts for customers who book tickets.
4. How tickets are booked now?

   Booking tickets is a tough job that it will result in a huge crowd. Sometimes customers get tired.

5. How the rides are managed?

   Each rides are allocated to different employees and they manage the rides.
6. How offers are provided?

   Mainly on basis of any festivals or depending on some special occations and also during the vacation time.

7. How food is provided for the customers?

   There are different food stores , bakeries and hotels inside the park .they can enjoy it.

8. How accommodation of the customers ?

   Rooms are available for customers who stays back.

9. Is online Payments are accepted inside the park for food and accommodations?

   Some stores provide online payments but the customers cannot order or prebook through online.

10.   Why dress code is mentioned for customers?

   Our amusement park has several rides to have fun on. Almost all of them involve motion or moving parts that require a special dress code to ensure your health and safety. For instance, loose garments could get entangled and lead to potential harm to yourselves and others. In order to ensure that the water quality for all rides is maintained, we enforce a strict dress code.
